Annually the community hosts different fests and competitions. Many people from Ukraine and abroad come to see the picturesque scenery, to stay in eco-farmsteads, to enjoy traditional food and to visit the National Museum of Ukrainian Pottery. The community location is an advantage itself, because it is located in the central part of Ukraine and has a developed system of transportation and infrastructure. One of the top priorities of Opishnya community is to establish and support of good cooperation between business and local authorities. We have established traditions in arranging different charity campaigns, sports events and fests. The community economy is mainly based on natural gas extraction and agriculture (this domain has been actively supported and developed; we use the positive experience of other successfully implemented projects).
